TC FEDERAL SUPPLY LLC

SDVOSB

DEFENSE INDUSTRIAL SUPPLY | QUALIFIED MANUFACTURING PARTNERSHIPS | SPECIALIZED COMPONENTS

SBA-CERTIFIED • CAGE 21L08

COMPANY OVERVIEW

TC Federal Supply LLC is an SDVOSB defense-industrial supply and sourcing company focused on specialized components, qualified manufacturing partnerships, and resilient U.S. defense supply chains. TCFS works with government customers, manufacturers, and specialized processors where technical specifications, source qualification, manufacturing capability, supplier capacity, and disciplined contract execution create meaningful barriers to entry.

CORE CAPABILITIES

Defense Component Sourcing & Supplier Development — Identify and develop capable U.S. manufacturers for drawing-defined, source-controlled, qualified, and specialized defense components.

Munitions & Ordnance Supply-Chain Development — Develop manufacturing and sourcing pathways for ammunition, ordnance, countermeasure, and related machined, formed, fabricated, and specialty-processed components.

Aerospace & Aviation Components — Source aircraft components, specialized hardware, assemblies, replacement parts, and requirements involving qualified sources or constrained supplier capacity.

Strategic Materials & Specialized Manufacturing — Develop supplier pathways across specialty metals, critical minerals, industrial chemicals, CNC machining, precision turning, forming, fabrication, heat treatment, plating, coating, finishing, and inspection.

Government Contract & Supply-Chain Execution — Requirement review, supplier diligence, pricing, bid/no-bid analysis, commercial structuring, documentation, logistics coordination, and performance oversight.

OPERATING MODEL

TCFS provides the commercial and contracting layer between government demand and qualified industrial capability. TCFS identifies requirements, evaluates technical and commercial feasibility, develops manufacturer and supplier pathways, coordinates qualification and documentation requirements, structures bids, and manages contract execution. Manufacturing and special-process work is performed by appropriately capable and qualified manufacturing partners when required.

TARGET MARKETS

MUNITIONS & ORDNANCE	AVIATION & AEROSPACE	DEFENSE COMPONENTS	STRATEGIC MATERIALS
Components & qualified production	Aircraft hardware & assemblies	Machined & drawing-defined parts	Feedstock, chemicals & special processes

DIFFERENTIATORS

- Defense-focused opportunity development around technical, qualification, supplier-access, and capacity barriers.
- Manufacturer-partner model built around capable U.S. manufacturers and specialized processors.
- Disciplined screening of technical feasibility, source restrictions, economics, delivery, compliance, and working capital before commitment.
- Veteran-led execution with military aviation, operations, finance, supplier coordination, and complex program experience.

COMPANY DATA

Legal Name: TC Federal Supply LLC
Business Type: SBA-certified SDVOSB
UEI: D6V5U6VS7S38
CAGE: 21L08
SAM: Active
Location: Pennsylvania

SELECTED NAICS

423860 Transportation Equipment & Supplies (primary)
423690 Other Electronic Parts & Equipment
332710 Machine Shops
332322 Sheet Metal Work Manufacturing
332721 Precision Turned Products
336413 Other Aircraft Parts & Aux. Equip.
